STAIRS

CAN BE INSTALLED ON
SPIRAL STAIRCASES

QUIET AND COMFORTABLE, SLIM IS THE MOST COMPACT INCLINED PLATFORM LIFT ON THE MARKET

SLIM is an inclined platform lift for staircases with curves especially suitable for installation in tight spaces. Unlike the other products on the market, SLIM has no traction unit onboard, minimising the space occupied by the platform. Slim is, in fact, the most compact inclined platform lift on the market. SLIM is extremely quiet and offers an exceptionally comfortable ride. With its simple, elegant design, SLIM blends perfectly into the original style and architecture of its installation context. Special priority is given to safety features, naturally always at the top of their class: SLIM has a series of devices which ensure it stops if the platform should accidentally encounter an obstacle on its path.

Complete safety is also assured when leaving the lift thanks to the IBS (independent barrier arms system), which guarantees that the bar on the other side remains closed. What's more, the lift's exceptional reliability and versatility also allow the creation of special installations able to deal with steep gradients, curves on the inside or outside of the staircase, rapid changes in gradient and winder treads, providing the best service in any situation.

MINIMUM STAIR WIDTH
895 MM

| | |
|--|----------------------------|
| Minimum stair width | 895 mm min |
| Platform dimensions | min 750x600 / max 1250x800 |
| Maximum load capacity | 225 kg (daN) |
| Max. gradient | 0° - 60° |
| Min. overall dimensions with platform closed | 305 mm |
| Minimum rail overall dimensions | 95 mm |
| Electrical consumption | 1,1/1,5 kW |
| Installation | indoor/outdoor |
| Soft-start and soft-stop system | standard |
| Slow down at bends | standard |

CREATING MOTION

Designing and building equipment that overcomes the architectural barriers and obstacles that prevent people with reduced mobility from moving around freely: this is our corporate mission.

The aim is to create “total quality” in all contexts, from the home to public buildings, whether space is limited or in plentiful supply.

All our products are based on painstaking design work, to guarantee the customer the best solution to access problems in every context, especially where space is at a premium.

We build superior-quality inclined and vertical platform lifts with the aid of outstanding technological know-how and a modern, dynamic vision of the market. Our company consists of a young, highly motivated team that takes the satisfaction of people's needs as its first and only objective.
